| | e-mail: |
| OVERALL PROBLEM / OBJECTIVE STATEMENT (Describe the problem, how the work is currently being done, and why improvement is needed): | |
| PROPOSED TECHNOLOGY & DEVELOPMENT WORK (Describe your concept of the end product, i.e., a new equipment design, a video production, a handbook, etc.): | |
| POTENTIAL BENEFITS (Describe how this project will reduce cost, save time, improve safety, increase efficiency, or provide resource management): | |
| Send to: victoria_josupait@blm.gov | |

TECHNOLOGY AND DEVELOPMENT PROGRAM
Recreation T&D Proposal Criteria

Proposals/Problem Statements are evaluated using the following criteria:

1. Savings - What would be the direct savings to the Bureau of Land Management (BLM) if a solution to the problem was implemented over five years?
2. Partnerships - What partnerships are in-place? What is the potential for partnerships? Are the partners internal with other BLM programs or with other agencies? Do or will the partners contribute funding to the project?
3. Strategic Plan - How would the problem solution help to achieve goals of the DOI Strategic Plan?
4. Effectiveness - How would a solution assist BLM field personnel to be more effective?
5. Scope - Would a solution benefit a broad audience, such as: Districts/Field Offices in multiple states/regions, numerous Districts/Field Offices in a single state/region, other federal agencies as well as BLM personnel?
